

Three Phase Smart Starter (Model: AP Digital Smart – 3P)

Smart Pump starters designed by using micro controllers to provides advanced intelligence solution for Pump / motor industry.

Features:

- ❖ 3 Phase (RYB) Voltage monitoring, Display & protects from Phase Un-Balance AC voltages
- ❖ 3 Digit seven segment display to show the Voltage, Amp's & Trip Time.
- ❖ 10 LEDs indications for Motor on, Ready Dry run, Voltage, current & Trip time.
- ❖ Pump running time can be set, depending upon tank filling time (Prevent water over flow).
- ❖ Pump Starter will monitor the water High levels.
- ❖ Pump Starter protected from AC voltage fluctuation (Starter trips the pump $<170V$ & $>440V$) it can be adjustable.
- ❖ Pump Starter protected the pump from Dry run & overload.
- ❖ Phase: Three phase.
