

## SEN-HZG1WA 1 INCH BRASS WATER FLOW SENSOR

The **Accord Power water flow sensor** is widely applied in industrial equipments, agricultural equipments and household electrical appliances in the future.

The **Accord Power water flow sensor** with POM materials had passed the United States FDA certification that can be used to water dispenser, water purifier, coffee machine, wine cooler, beer machine, monitor liquid flow rate in water machine, water heater, vending machine, water meter medical testing machine and etc...

### **SPECIFICATIONS:**

1. Material: Brass Copper
2. Color: Golden
3. Flow Range: 4-45L/min
4. Pressure performance:  $\leq 1.75\text{Mpa}$
5. Line specification & install direction: could be customized
6. Water temperature:  $\leq 80\text{ }^{\circ}\text{C}$
